Smart Touch Zone with 15 gestures

Illuminated Wireless Touchpad Keyboard

E9090^P

This ultra-slim touchpad keyboard is impressive both in terms of its looks as well as its functionality and finish. Induction charging is not only innovative – it's also incredibly convenient and dispenses with the need to change batteries or hunt for cables.

Thanks to the illuminated keys, there's nothing to stop you using it even in complete darkness. The housing made from stainless steel and aluminum alloy makes the keyboard look really stylish plus it offers maximum durability.

▶ Wireless induction charging

It doesn't get any easier than this: Wireless induction charging makes charging easier than ever. Simply place the keyboard on the charging station once you've finished using it. Leave it there. Done.

▶ Adjustable key illumination

Keep track in the dark: All keys are backlit. This lets you type with ease, even in the dark. Toggle between 3 levels of lighting intensity at the press of a button.

▶ Reliable 5 GHz wireless connection

Wireless and interference-free: The 5 GHz wireless connection developed by Rapoo offers you an interference-free range of up to 10 m and 360° coverage – and all while consuming very little power.

▶ Smart Touch Zone with 15 gestures

Touchpad included: The generously sized touchpad offers easy and convenient navigation without the need for a mouse. With up to 15 configurable touch gestures, navigation is made smoother and more natural.
