

# Mousetrapper prime

All you want from a Mousetrapper, and then more. A total of eight programmable buttons give you more options for setting up Mousetrapper to work exactly the way you want. Mousetrapper prime also lets you work wirelessly via USB. Mousetrapper prime is an ergonomic alternative to a mouse that prevents repetitive strain injuries and other problems that can occur when you use a conventional mouse.

## Benefits of Mousetrapper prime

All you want from a Mousetrapper, and then more. A total of eight programmable buttons give you more options for setting up Mousetrapper to work exactly the way you want. Mousetrapper prime also lets you work wirelessly via USB, and has a brand new scrolling function with buttons for scrolling up and down. Two preset buttons for zooming in and out are standard on Mousetrapper prime. The downloadable MT Keys software has also been updated to deliver significantly more options with Mousetrapper prime, including the ability to paste a text string of up to 254 characters using a single button. The replaceable and wipeable wrist supports on Mousetrapper prime make it easy to keep the product clean. Mousetrapper prime has a folding keyboard support, which makes it equally compatible with new low-profile keyboards and higher-profile standard keyboards.

## Key features

- Wrist supports can be cleaned with surface disinfectants
- Replaceable wrist supports
- Height adjustment with folding non-slip surface
- Six months of battery life between charges
- Rechargeable battery
- 2000 dpi

# Mousetrapper prime

Because Mousetrapper is positioned centrally in front of the keyboard it encourages an ergonomically healthy position that keeps your arms close to your body and your hands near the keyboard. This helps you avoid and in many cases relieve strain injuries that can arise from over-stretching your arm, as you do with a conventional mouse. It eliminates the need to stretch beyond the keyboard while using the mouse. The wide, cushioned wrist supports also relieve strain on your neck, shoulders, arms and wrists.

## Mousetrapper feel and MT Keys

By placing your index, middle and ring fingers on the control pad you can control the cursor with simple movements as the control pad moves smoothly in two dimensions. You can also left-click anywhere on the control pad.

MT Keys software lets you easily reconfigure the existing functions of your Mousetrapper to choose exactly the functions you want. MT Keys software is easy to download from the Mousetrapper website.

## Tips for better posture and ergonomics:

- Adjust your chair so that your feet are supported on the floor and keep your back straight while you are sitting.
- Keep your arms close to your body while working.
- Rest your arms on wrist supports or your desk.
- Vary your working position; use a stand-and-sit desk to alternate between standing and sitting.
- Position the screen at a comfortable distance that does not put strain on your eyes or neck.
- Avoid repetitive strain injuries (RSI) by reviewing your choice of mouse.

## Facts

- Width: 480 mm
- Height: 20 mm
- Depth: 110 mm
- Weight: 720 g
- Product code: MT111
