# Introducing the Oyster Mouse

The only single mouse to meet EVERY companies ergonomic mouse standards

## The All New "10 Position" Ambidextrous Oyster Mouse

The Oyster Mouse is an award winning design by Ergoption that is the only fully adjustable ergonomic mouse: you can instantly adjust the mouse to **5 different angles** to intuitively find the best posture for you. Changing your wrist posture now and then helps you prevent Repetitive Stress Injuries (RSI) and most wrist discomfort such as Carpal Tunnel Syndrome (CTS).

### It's the Pearl Among all the mice of its kind.

The Oyster Mouse Wireless is perfectly ambidextrous allowing an equally comfortable computing experience for both right and left hand users. This feature makes it ideal for companies that supply their employees with mice. There is no guessing, or asking, what kind they need.

The Oyster Mouse Wireless is winner of the 2011 National Ergonomics Conference and Exposition Attendees Choice Award.

Available in both wired (model 5081) and wireless (model 5081 RF), The wireless charges via USB cord (included) and does not require batteries.

**Ergoption—Sweden's leading designer of ergonomic workstation products have created the worlds first truly "ergonomic computer mouse".** *A larger size model is scheduled to release early next year.*

> Larger Model Available Q4 2013

## Ergonomics is the science of designing the job, equipment, and workplace to fit the worker.

Proper Ergonomic design is necessary to prevent repetitive strain injuries (RSI), which can develop over time and can lead to long-term disability.
