- Step 3. Press "Fn+ W" keys on the keyboard switch to the Windows operating system.
- Step 4. Choose your operating system.

Fn + Q	Android
Fn + W	Windows
Fn + E	iOS / OSX

NOTE FOR WIRELESS MODE

- 1. Keyboard can only be connected to one device at a time.
- 2. For other Bluetooth enabled devices, please verify the Bluetooth capability before attempting to connect to the keyboard.
- 3. After pairing for the first time, your device will automatically connect to the keyboard automatically when powering on or waking up the keyboard. Unless the keyboard has been paired with something else.
- 4. In case of connection failure, Delete the pairing record from your device and try the above procedures again.

POWER SAVING MODE (BLUETOOTH MODE)

The Keyboard will enter sleep mode after being idle for 30 minutes. To activate it, press any key and wait for 3 seconds to reconnect.

HOW TO CHARGE

- 1. Use the included Micro-USB cable for charging. Connect one end to a USB charger or port, and the other to the keyboard. The keyboard can be used while charging.
- 2. Whilst charging, the power indicator will turn red. Approximately 2 hours until fully charged. (USB charger is not included, but cable to USB port works)

BATTERY LIFE TIP

When not in use for a prolonged period of time, it is recommended that the keyboard is turned off to lengthen the battery life.

TROUBLESHOOTING FOR WIRELESS MODE

If you are unable to connect the keyboard, please try the following:

- 1. Make sure the keyboard is in Bluetooth mode. State indicator light is blue when keyboard is powered on. Press "FN+1" switch to wireless connection.
- 2. Starting with a full charge on both devices ensures that process won't be interrupted by low battery.
- 3. Make sure your devices Bluetooth is on.
- 4. Make sure that the keyboard is within the effective operation distance of 10 meters. (line of sight, walls etc. will reduce operational range)

TROUBLESHOOTING FOR WIRED MODE

Make sure that the keyboard is in wired mode. Press "FN+2" switch to wired connection, State indicator light should be green.

SAFETY INSTRUCTIONS

- 1. Keep the keyboard away from sharp objects that could damage it.
- 2. Do not put heavy objects on the keyboard.
- 3. Do not stretch, twist or apply force to the keyboard.
- 4. To clean the keyboard, gently wipe it by using a moist cotton cloth.
- 5. Make sure the keyboard is turned off before cleaning. Do not use liquid cleanser.
- 6. Please do not spill liquids on the keyboard.
- 7. Avoid extreme hot and cold temperatures.
