

PRODUCT INFORMATION

FLEXLITE™ is built on the well-known and reliable LGP-technology and offers ultimate flexibility for the modern office workplace.

The construction is based on a versatile arm with silicon cover that is adjustable in all directions and together with the weighted base it provides a great solution for all users. With its modern and sleek appearance it blends in in all environments, office workplace as well as other places.

FLEXLITE™ is equipped with a four step dimmer to set the light at any strength preferred. The use of dimmer is a great enhancement due to the individual need for different users.

FLEXLITE™ is offered in two colours, white and black.
